"In my opinion, manure management plans prepared and maintained by Twin Lakes Environmental Services, LLC were by far the most complete and professional plans that I worked with."

Julie Nelson, former DNR Environmental Specialist, 1989-2005

"Spreading plans I receive from Twin Lakes Environmental Services are easy to understand and contain the information needed to meet my regulatory responsibilities as well as those of my customers."

Lowell Johnson, Owner – Johnson Custom Ag, Inc.

I contacted Twin Lakes Environmental Services upon my purchase of an existing site. Becky handled all of the regulatory requirements and helped me meet my 60 day time frame in a professional manner."

Mark Weaver, DVM J Owner – W. W. Swine Farms, Inc.

We are here to help with all of your Environmental Regulations Requirements.

Twin Lakes Environmental Services, LLC, specializes in writing Manure Management Plans (MMP) and Comprehensive Nutrient Management Plans (CNMP) to ensure environmentally sound agriculture practices and manure application in compliance with all state and federal regulations.

Our staff will work with you one on one to assure that your plan works for your site and that you understand it. Our goal is to help producers create plans based on nitrogen and/or phosphorus in compliance with regulations that will work to the best benefit of their farming operation.

Twin Lakes Environmental Services, LLC, has been assisting producers with manure management plans for over 7 years. Our staff is knowledgeable in state and federal regulations. We have built solid, trusting, working relationships with DNR offices and field staff across the State of Iowa. We will work as a liaison for your livestock operation when it comes to working with the state and federal agencies.

We offer assistance with:

- ✓ Manure Management Plan (MMP) development to include RUSLE2 and Phosphorus Index
- ✓ Nutrient Management Plans (NMP) to meet EPA CAFO regulations
- ✓ Comprehensive Nutrient Management Plans (CNMP) to meet NRCS EQIP requirements
- ✓ Online recordkeeping system – www.manureworks.com
- ✓ Pre siting consultations and mapping
- ✓ New Construction
- ✓ Expansion
- ✓ Pre construction site inspections
- ✓ Matrix calculations
- ✓ NPDES/Storm Water Permits
- ✓ DNR site inspections
- ✓ Manure Application Records
- ✓ DNR required monitoring
- ✓ Other services as may be required or requested
